

Kid Pix Studio Deluxe

Kid Pix Studio Deluxe is multimedia software that combines text, graphics, and sounds to create a variety of products. This latest version of Kid Pix allows the user to edit text and provides a large selection of graphic and sound files. In the classroom it can be used to create simple one-page documents or complex slide shows complete with sound and video clips.

The Picker Screen is the first thing you see when you open Kid Pix. To choose a project, click on the nameplate or the button on the screen.

Kid Pix gives lots of easy to use tools for creating pictures with text.

Wacky TV is an on-screen-digital movie player with built-in special effects.

Moopies creates animated pictures.

Stampinator animates stamps to move across the screen.

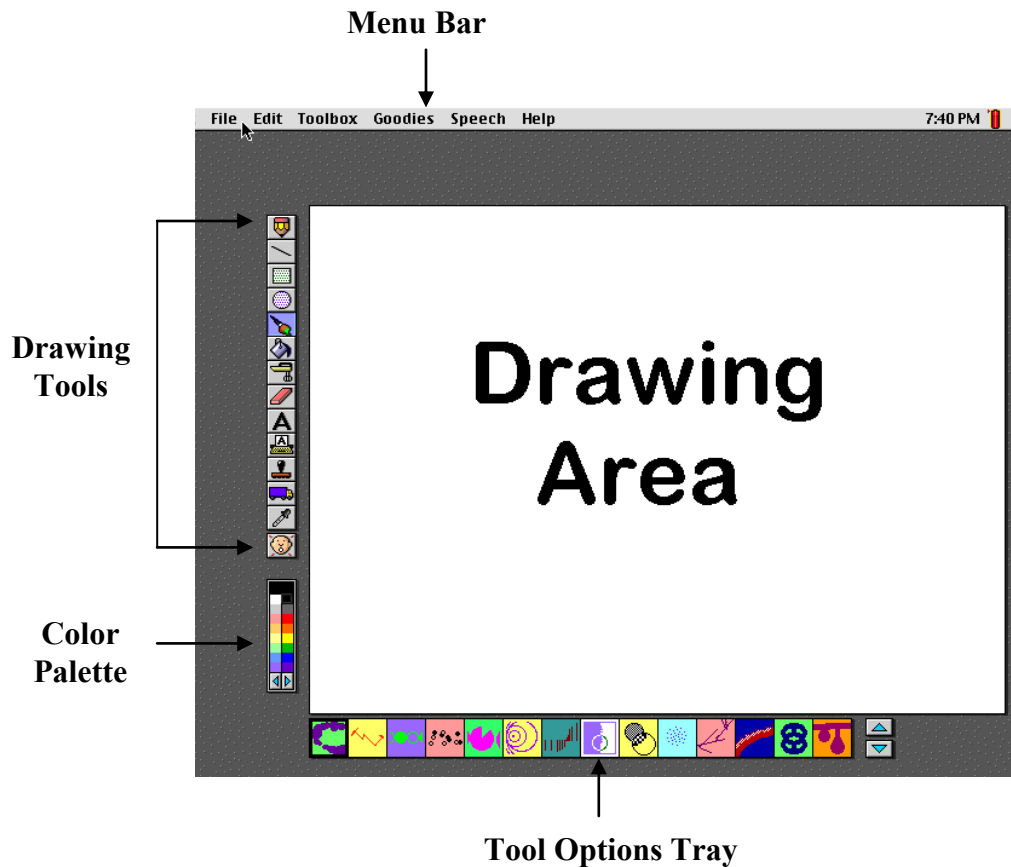

Digital Puppets are on-screen marionettes that you control.

Slide Show allows you to create a multimedia presentation.

Kid Pix

The basic parts of the Kid Pix screen are the drawing area, the toolbar, the color palette, and the menu bar.

Menu Bar

- ◆ The **File** menu lists commands for opening and saving files, for printing, and for returning to the Studio Picker screen.
- ◆ The **Edit** menu lists commands for making changes to your picture.
- ◆ The **Toolbox** menu has controls for how Kid Pix works.
- ◆ The **Goodies** menu gives you more ways to use the basic Kid Pix tools.
- ◆ The **Speech** menu lets you hear the text in your picture read aloud.

Drawing Tools

Click to select the drawing tool.

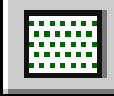

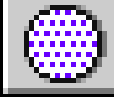

Color Palette

Click on the color to select. Use the arrows to see additional colors.

Tool Options Tray

Some tools have more than one tray of options. Click the arrows for more choices.

Drawing Tools

	The Wacky Pencil is used for free-form lines. You can choose the shape, width, and pattern of the line.
	The Line tool is used to draw straight lines. You can choose the width and pattern of the line. To draw angles, press the Shift key while drawing.
	The Rectangle tool draws rectangles with different patterns. To draw a square, press the Shift key while drawing.
	The Oval tool draws ovals in different patterns. To draw a circle, press the Shift key while drawing.
	The Wacky Brush gives you a variety of painting options. Click the arrows on the Tool Tray Option to see the options.
	The Paint Can fills all or part of your picture with colors and patterns.
	The Electric Mixer transforms your drawing with special effects.
	The Eraser works in two ways. The first four Erasers on the Tool Tray Option work like pencil erasers. The rest erase the screen with a click.
	The Talking Alphabet Stamps tool stamps, letters, numbers and punctuation marks.
	The Typewriter adds text that can be edited and read aloud. Change the text using the Color Palette and Tool Tray Options.
	The Rubber Stamp has a lot of colorful stamps to add to your picture.
	The Moving Van will move a section of the picture to another location, copy and paste the selection, or resize the selection.
	The Eyedropper tool selects a color from your picture.
	The Undo Guy will undo the last action.
