

Summer Chromebook Take-Home Opportunity

Newnan High Students,

We encourage you to take advantage of our Summer Chromebook Checkout Program. In our ongoing effort to extend learning opportunities and provide students access to technology, Coweta County School System is offering a “Summer Take-Home” opportunity for Chromebooks. **Pending parent or guardian approval through the electronic form link attached**, students will be allowed to keep their Chromebook through the summer with an active cowetaschools.net account. Students will re-check their Chromebook back in for inventory the first week of school upon returning in August. There is an option for choosing “No” for this opportunity and student Chromebooks will be turned in for summer storage starting May 15th.

Once your Chromebook is taken up, you will no longer have access to it for the remaining days of the school year. This is important to know when planning for end of the year projects, testing and other Google Classroom activities and assignments. Your teacher will have access to a loaner cart should you need a Chromebook to use during class time only. It is your responsibility to communicate with your teacher regarding specific technology needs. Students will receive their same assigned Chromebook upon returning to school in August.

This form must be completed by your parent or guardian not the student.
