MEETINGS WILL TAKE PLACE  
IN THE SCHOOL CAFETERIAS

Please join us for a series of community conversations to discuss the growth of our community and school enrollment, and the future of our school facilities.

Coweta County School System administrators are taking a close look at the factors that will impact facility improvements, including enrollment growth, building capacities, age of facilities and other issues. Your input will help guide the decision-making.

Join us for a meeting at a location near your elementary, middle or high school, or feel free to attend any of the six scheduled meetings. Community members and parents from all schools are welcome!
